AWOOGA DEMO DAY DECK

AWOOGA PRESENTS

VibeCheck

A behavioral matching app from Awooga that uses conversation, profile signals, and persistent match threads to move beyond shallow swipe mechanics.

DEMO DAY

REACT + VITE

FASTAPI

GEMINI 3.1 FLASH

PITCH TO GOOGLE

Match on behavior, not just appearance.

Awooga is showing how Gemini can become the operating layer for a dating product, not just a chatbot bolted onto one.

TODAY

Live

Persistent matches, gallery-based discover deck, vibe-check analysis, and inbox behaviors are implemented.

GOOGLE VALUE

2 Layers

Google products already power the AI layer, and Firebase scaffolding creates a clear Google-native expansion path.

AUDIENCE

Google

This version of the deck is tuned for Demo Day, with Google as the target audience for the product and platform story.
